1. Document Overview & Branding

This document establishes the official software specifications for the updated Hunuwala Dharmaraja Vidyalaya Student Data Management System. System color schemes, landing assets, and navigation bars must directly implement the primary school identity elements from the official school emblem referenced in file 286170274_107386598669613_4698180721967560276_n.jpg.

2. Internationalization (i18n) & Localization Architecture

The system must support explicit runtime switching between English and Sinhala languages without page reloads. User language tokens ('en' or 'si') must persist in browser LocalStorage to maintain consistency across active sessions.
